

SOLARA SB

THERMOFORMING PRESS

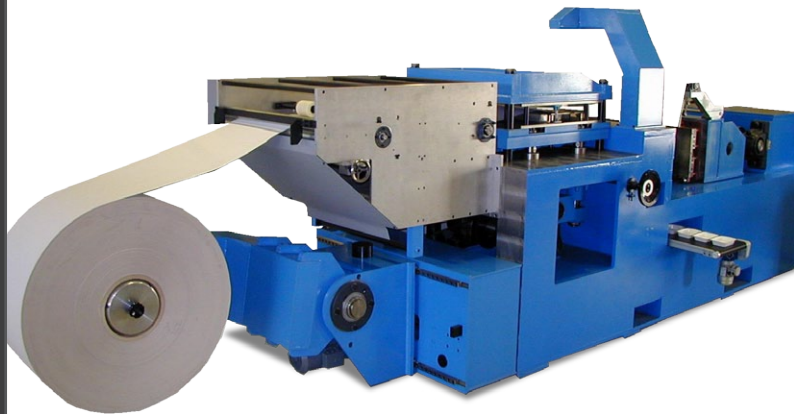

up to 160 paper items /min

 Made in FRANCE

«SOLARA SB, high speed disposable paper items production line »

- Thermoforming press SOLARA SB is designed for the production of disposable paperboard items such as plates, trays, bowls and containers.
- Thermoforming press SOLARA SB works from cardboard reels integrating functions of unwinding, scoring and punching, forming, stacking, counting and piling up.
- The design of the thermoforming press SOLARA SB makes easy its use and its maintenance.
- The strong forming force exerted by the press, combined with long time pressure, guarantee high quality thermoforming.
